December 1998

CHAIRMAN'S CHRISTMAS MESSAGE

This is a much more optimistic message than a year ago – the Club will trade profitably in 1998 and I'll have some good financial news to report to you all in the New Year.

Other positive steps that your Committee have achieved since the AGM include the successful introduction of the catering contract, improvement in food quality, provision of a breakfast service, better maintenance programs and cleaning services in the Athletics Department and an improved administration support service for all Members.

Shortly, a new AD Manager will be joining the Club with a brief to raise its profile and the range of services offered. We are also obtaining design input for the planned Brasserie and Lounge on Level Two.

Together with the guaranteed profit from very prestigious and lucrative bid for the Sydney 2000 Olympics, financial changes already made will put the Club into a secure financial position for 1999. Next year will also see a significant increase in the range and quality of functions offered to Members.

If you have any good ideas, please share them with your Committee or the Secretary. I wish you all a very Merry Christmas and look forward to reinforcing our comradeship in the Club throughout 1999.

Denis Cleary
Chairman

NEW YEAR'S RACE DAY

Each Member should be receiving their two complimentary entry tickets and Members passes to the New Year's Race Day on January 1, 1999 with their November accounts.

As mentioned in the previous Newsletter, Tattersall's will be once again holding its annual New Years Day Luncheon in the Vice Regal Room. This well-appointed room, with its own private viewing balcony is always popular, and at the time of press, only a handful of tickets remain.

If you call quickly, these seats might still be available. Tickets are great value at just \$70.00 per person, which will include your meal, beer, wines, soft drinks and, entry to the Racecourse and Members' areas.

To make your booking, please call the Club on 9264 6111.
